# NO LIMITS!

Forever Living Products is a different kind of company that provides everyone with a better quality of life through innovative wellness products and an unmatched financial opportunity.

*We invite you to live your life without limits!*

## Not All Businesses Are Created Equal

Forever Living Products is a company with a proven track record that shows integrity with every business decision. While there are other companies that claim to offer similar opportunities, it's important to understand what makes a successful multi-level marketing company. Look for these important business practices:

### Quality Product

Innovative, quality products speak of the credibility of the company—and you as a Distributor. Look for a market leader with a proven track record.

### No Pass-Ups

Nobody in your downline should ever be promoted above you. A promotion for them should be a promotion for you too.

### No Demotions

A good marketing plan allows you to relax if you need to without worrying about being demoted for inactivity.

### Bonuses Paid on Retail Prices

Bonuses on retail pricing means more money for you, the Distributor. Bonuses paid on wholesale pricing is a red flag.

### Financial Stability & Longevity

Steady growth is a strong indicator of a successful future. Review growth charts and sales figures for the entire life of the company. The longer a company has been around, the more experience and stability it has. Look for a company with at least a 5-year track record of growth and strong management. Forever Living has over a 30 year track record of success.

### Multiple Income Opportunities

A key advantage to being involved with an MLM business is that you can enjoy multiple opportunities to earn money. A good company will offer profit sharing, leadership, and royalty bonuses.

### Consumable Products

An active customer base is critical to a successful home-based business. This can only be built with quality consumable products.

### Extensive Support Network

Your success represents the success of the company. A good company will offer excellent training, seminars, incentives, and a support center.

### International Presence

A company with an international presence demonstrates stability, growth, and ample industry experience.

Healthy products from the hive are an essential part of a naturally healthy lifestyle.
