

Aloe Ever-Shield Deodorant Stick

Description and Purpose

When the temperature is rising and the pressure is on, keeping that fresh feeling from the start of the day is a real confidence booster. Aloe Ever-Shield Deodorant Stick provides effective, all-day protection against underarm odour, and can be applied directly after shaving or waxing without stinging. Forever have formulated a product that maximises the deodorant properties of aloe vera without adding harmful ingredients.

This gentle formula with stabilised aloe vera gel contains no harsh or harmful anti-perspirant aluminium salts that are found in so many other deodorants on the market. Aluminium is a toxic metal: the major effects of having too much aluminium in the body seem to be on the central nervous system. It can also disrupt the calcium status of the body, due to its influence of parathyroid gland activity - too much parathyroid hormone can lead to high blood calcium. We're proud to bring you a product that has eliminated these dangers, without compromising on quality.

At a glance...

- No aluminium salts
- Will not stain clothes
- Can be used directly after underarm shaving and waxing
- Convenient stick form minimises wastage
- Long-lasting

The convenient stick form allows you to apply Aloe Ever-Shield just where it is needed. The special formulation glides on smoothly and does not stain clothes, even after prolonged use.

Ingredients

Propylene glycol, purified water, sodium stearate, stabilised aloe vera gel, fragrance, triclosan.

Contents

92.1g (3.25oz).

Directions

Apply Aloe Ever-Shield under your arms every day, for a fresh and clean feeling all day long. Can be used on feet too.
