

Forever Aloe Pro-Set

Description and Purpose

To meet the needs of environmentally-conscious consumers, Forever has specially prepared an alcohol-free, ozone-friendly hair spray containing the best ingredients available. Not only does it protect the hair, but it holds style longer.

Many hair sprays available in stores contain alcohol, which can dehydrate your hair. Prolonged use of alcohol-based styling products can lead to clogged follicles and a growth-inhibiting coating on the hair shaft, which can also dry and discolour hair. It can also irritate the scalp and lead to other hair problems, as well as harm the environment.

The key ingredients of Aloe Pro-Set are friendly to the scalp and hair. Water replenishes moisture lost to excessive blow-drying and hot sunshine, stabilised aloe vera gel increases the hair's elasticity for better styling, and hydrolysed vegetable protein replenishes lost nutrients.

Used with Aloe-Jojoba Shampoo and Conditioning Rinse, Aloe Pro-Set can further protect hair from damage. It is an excellent conditioning, finishing and setting spray. Applied in several light layers, (and allowed to dry in between), it will give your hair a firm hold and healthy shine.

At a glance...

- Sets without damaging the hair
- Moisturises and conditions
- Ozone-friendly
- Alcohol-free

The container is compact enough to take wherever you need it. Now you can create the look you want and still give your hair and scalp the best treatment, using Forever Aloe Pro-Set.

Ingredients

Purified water, stabilised aloe vera gel, propylene glycol, PVP, glycerin, panthenol, hydrolysed vegetable protein, oleth-10, fragrance, dimethicone copolyol, tetrasodium EDTA, triethanolamine, methylchloroisothiazolinone, methylisothiazolinone.

Contents

178ml (6fl oz).

Directions

Hold container approximately 30cm (12 inches) away from the hair and spray evenly. Style as desired and allow to dry. Reapply as needed.
