# Taking Your Own Path

**“Two roads diverged in a wood, and I took the one less traveled by...”**

**W**e all know the famous poem by Robert Frost. I think many of you would agree that Forever isn't always the easiest

road – it can be one of obstacles, doubts and at times frustration. But there is a reason that despite the “easier” paths that are available, millions of people have become Forever Business Owners.

When I left Del Webb, by all accounts a great, stable job, because of my passion to help people and share Aloe Vera with the world, it certainly wasn't the expected road forward. So if this path can be, and often is, more difficult, why do so many choose to take it? Why are we able to grow and share our business all over the world? Because much like taking a scenic drive on a rarely traveled stretch of road or hiking a forgotten trail, the view is worth the work.

Earlier this year we introduced our values – qualities that we know represent you, our Forever Business

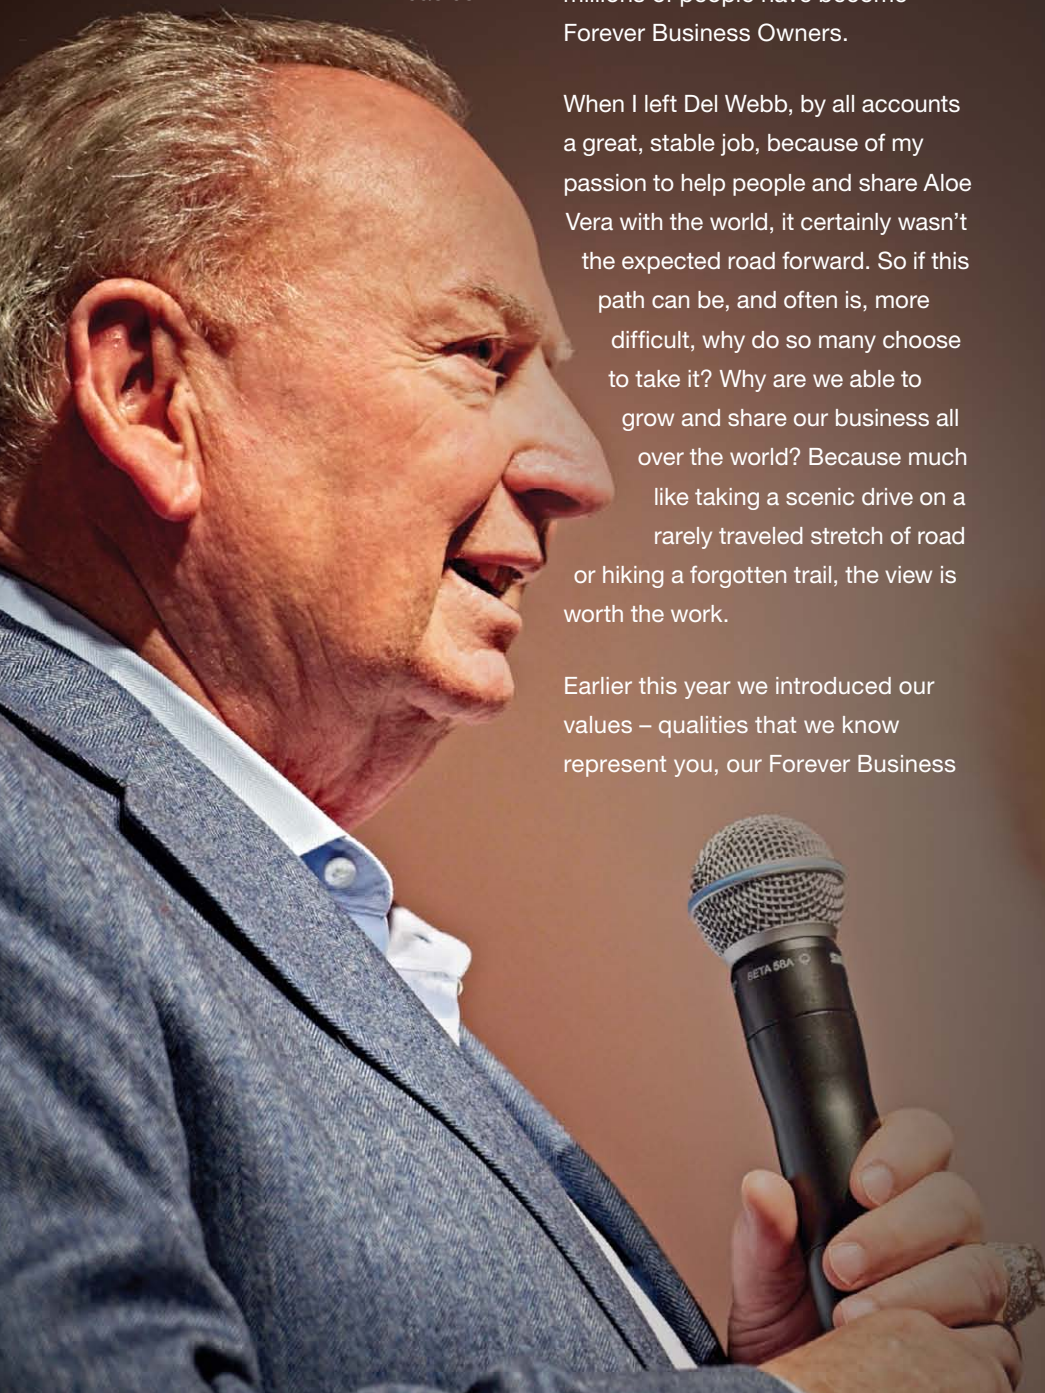

Owners. You always seek adventure, are brave and stay agile. Most importantly, you take no shortcuts. This is why you are willing to take the hard road, the road filled with rocks and thorns and glass and adversity. This is why you are willing to do what others can't or won't. And this is why you are living the lives that others have only dreamed of.

I don't know what motivated Robert Frost to write “The Road Not Taken”. I do know that it carries a powerful lesson of the value of hard work and perseverance. Though the easy road may be tempting and shortcuts may seem appealing, you are only keeping yourself from reaching your full potential. Take the road less traveled, forge your own path forward whenever you can. As Robert Frost said, “I took the one less traveled by. And that has made all the difference.”

Forever Yours,

**Rex Maughan**

**The hallmarks of a good leader**

"Leadership is action, not position" - Donald H. McLean

Great leaders often share many of the same general traits. One of the first things you'll notice about a good leader is a passion for the work at hand. A leader wants to get things done and is not content to sit on the sidelines. He or she also has a large capacity to work efficiently and accomplish many things.

Great leaders also expect the best from others. They realize that it's to their benefit to have those who follow become successful, too. That's why they seek out those who have talent and allow that talent to shine. To encourage others to be their best, great leaders are generous with words of encouragement and guidance.

They also are good communicators, who believe it's important to keep others informed of the "big picture" and their place within it. An open line of communication between yourself and those whom you lead is essential to leadership. By letting others know where you want your business to go and why you're able to reach your vision and help others reach theirs too, it's also vital to establish an environment where visions are shared and dreams are achievable.

Leaders welcome the opportunity to challenge their comfort zone and use life as an adventure to those who remain open to new experiences. Leaders are not afraid of change or the unknown, and realize that they must take risks in order to reach new heights. They're not afraid to get their hands dirty at things in different ways and they often believe in one who can be great by learning about the experiences of others. A great leader understands the value of learning, asking and growing requires others to continue life to the fullest and not settle for the ordinary.

Great leaders also believe it's essential to "give back" to the community. Through their successful acts and relationships, their circle of goodness expands exponentially. At the same time, they give others the opportunity to rise to the people and live their leadership style.

FLP provides unlimited opportunities for each of us to grow as individuals and as leaders. Each line we strive to improve our leadership skills, we are creating the opportunity for others to do the same. Both as professionals as well as our personal lives. Lead by example. Encourage all that your association with FLP offers and encourage others to do the same!

# Being an Eagle Manager is about more than just a retreat in some of the most beautiful parts of the world – though it does have its perks.

**T**he power of becoming an Eagle Manager is found in what it does for your business. By helping others look better, feel better and achieve their Forever dream, you are able to grow your business. That means bigger bonus cheques, a larger team and more retail income. Eagle Managers are also invited each September to Eagle Managers Retreat for training, relaxation and networking with other business leaders.

Even though Eagle Managers Retreat isn't the reason to become an Eagle Manager – it is another opportunity for you to travel the world with Forever. Here are a few of the things our Eagle Managers have to look forward to this year in Cancun!

## Learn from the Best

Eagle Managers will have access to unprecedented training from leading global Forever Business Owners including our GLT and some of our Eagle Managers who have qualified for every year of the program! Learn more

about best selling products like Forever F.I.T. and Forever Essential Oils, how social media can help you build your business and more!

## Kick Back and Relax

Located on an idyllic stretch of white sand beach, Moon Palace Resort and Spa offers the best in luxury accommodations. Want to play a round of golf with your fellow Eagle Managers? Relax with a spa treatment after your training, or show off your surfing skills on the Flowrider? Moon Palace has all of this and more.

## Experience the Past

A more relaxed schedule focused on networking and training ensures Eagle Managers have plenty of opportunities to enjoy the local culture and scenery between meetings. One of the fantastic cultural activities available in the area is the remarkable Mayan ruins of Chichén Itzá. Explore the city's sacred temples, grand pyramids and ceremonial sights while discovering the mysteries of the Mayan civilization.

## Make New Friends

The beautiful, crystal clear waters of Mexico are fantastic for many water sports, but the most exciting might be the once-in-a-lifetime opportunity to snorkel with sea turtles! Watch these majestic creatures interact in their natural habitat and make memories that will last a lifetime!

## Dive In

Enjoy a unique experience exploring jungle cenotes or underground caves on a guided snorkel tour. These freshwater sinkholes are carved out of the limestone creating luminous caverns filled by the underground river that flows through the Yucatan Peninsula. Learn the spiritual significance of these cenotes to the ancient Mayans and experience one of nature's wonders.

These are only a small sampling of the activities available for Eagle Managers to experience in and around Cancun. Go sailing, try scuba diving, jet ski and enjoy more unique experiences you can't find anywhere else in the world!

For Life

# Energy for Life

Energy, stamina and endurance are key traits for sports enthusiasts, whether in training or on the go. Keep your energy levels up by providing your body with the fuel it needs to keep going.

**En-Argi™ gives you the support your body needs to keep energy levels at their peak and support the production of energy from the inside out. With the benefits of Forever Daily™, Forever Bee Pollen®, ARGi+®, FAB™ and FAB-X™, En-Argi™ helps support energy levels every single day throughout your busy life.**

When you aren't eating the healthiest, **Forever Daily™** provides the essential vitamins and minerals your cells and tissues need for optimal function every day. The nutrients in **Forever Daily™** can help to optimize cellular function. Without these vitamins and minerals, our cells miss out on important building blocks and coenzymes for basic functions, which can leave us feeling tired and keep us from functioning at our best.

**En-Argi™** also includes **Forever Bee Pollen™** for additional nutritive support. Bee Pollen is a very complex food, comprised of protein, carbohydrates, fats, vitamins and minerals, enzymes and more.

**ARGi+™** helps to support the circulatory system – which helps transport vitamins, minerals and nutrients through your body to where they are needed for metabolic function and cellular energy! With high levels of L-Arginine, plus a unique blend of nutrients and botanical extracts, **ARGi+™** supports the production of nitric oxide in the body. Nitric oxide, in turn, supports the function of our blood vessels, including microcirculation – the tiniest of blood vessels leading to cells and tissues.

**This trio of products in En-Argi™ combines to ensure your body gets the nutrients and support it needs for overall health and keeps your energy levels up regardless of whatever your daily life throws at you.**

When you still need an extra push to get through that big project at work, or to keep up with your children or grandchildren, **En-Argi™** also includes Forever Living's unique **FAB™** and **FAB-X™** energy drinks!

These powerful **FAB™** formulas offer vitamins, amino acids and electrolytes, plus adaptogenic herbs to support energy levels and feelings of well-being throughout your day. In combination with natural Guarana extract, the adaptogenic blend in **FAB™** and **FAB-X™** (a no-calorie, no-sugar, no-carbohydrate formula) help give you immediate energy without the jitters or "crash" that is often associated with typical energy drinks on the market.

**En-Argi™** is designed to help support your busy lifestyle with the benefits of **Forever Daily™**, **Forever Bee Pollen™**, **ARGi+™**, **FAB™** and **FAB-X™** to give you important nutrients and the extra boost of energy you need to be your best!

# Forever™ Essential Oils

Since 1978, Forever Living Products has worked to source the purest natural ingredients found all over the world and create the highest quality products available on the market today. Working with a team of scientists, farmers, aromatherapists and botanists, the Forever Living team traveled throughout the world to find and source nature's purest ingredients.

## Nature's Purest Ingredients

Forever™ Essential Oils are selected, harvested and produced with the highest quality in mind. Mineral content of soil, climate, location and sustainability are all considered when choosing a location to source the botanicals, fruits, herbs and plants that become Forever™ Essential Oils.

After harvesting, essential oils are extracted from these carefully selected crops primarily using steam distillation and cold pressing. Each essential oil is extracted from a specific part of the plant including blossoms, fruits, seeds, leaves and even bark and roots. The plant part used and extraction techniques are distinct to each type of oil. The end result is nature's purest botanical essence, harvested especially for you.

## The Power Of The Senses & Aromatherapy

The human senses are incredibly powerful and greatly affect thought, mood and many other brain functions and work together to help support our perception of our surroundings. Undoubtedly, one of the most powerful senses is the sense of smell. The brain's olfactory receptors, cells located in the back of the nasal cavity, are linked directly to the limbic system in the brain, which supports emotion and memory.

It's no surprise given the power of our senses, that the therapeutic benefits of aromatherapy are widely celebrated. Essential oils and aromatherapy have been utilized by many ancient cultures and were described in writing

as early as the 1st Century as a way to help naturally support the body, stimulate the senses and help people look and feel better.

## Carrier Oil

A proprietary blend of aloe vera, vitamins E, A and C and natural unscented oils. As Forever's essential oils are so potent, they should be used in conjunction with this product when applied to the skin.
