Aloe Fleur de Jouvence®
Recovering Night Creme

Recovering Night Creme is a primary component of the Aloe Fleur de Jouvence® collection. It contains polysaccharides and other skin humectants which form a protective film against moisture loss. Natural lipids for the important oil/water balance are provided by wheat germ glycerides and apricot kernel oil. Soluble collagen is needed for maintaining good skin structure and reducing line and wrinkle appearance to help combat signs of aging. Special skin enhancers, derived from natural plant and bee product extracts, are also included.

The moisturizers in Recovering Night Creme give life to the look and feel of your skin. It is designed for night use to condition the skin while the body rests, helping to restore the 'Flower of Youth' – skin that is youthful in its appearance, pliable, smooth and taut. It is a superior, velvety cream that restores fullness to even the finest wrinkle lines, keeping the skin supple, while helping maintain elasticity and moisture.
