## Weight

7g.

## How to apply

Prepare your skin for foundation application by first cleansing, toning and moisturising with the Forever skincare regime. Sonya Cream to Powder Foundation should be softened before applying. This may be done with a sponge and will ensure a flawless application.

For **total** coverage apply foundation with the Sonya compact sponge supplied. Start from the middle of the face and apply base to the nose, cheeks, under eyes and eyelids. Blend in a 'starburst' pattern outwards to the hairline and jawline.

For **spot** coverage use a small applicator and apply to problem areas such as under the eyes, eyelids, nose or chin. Gently pat and blend at the edges.

## Hints and tips

- Use the Sonya Foundation Selector as a guide to select the perfect shade.
- Re-touch throughout the day with the easy-to-use elegant, black compact.
- Foundation can be applied as full coverage.
