CBQ TESTIMONIES

Inspiring stories of hard work, achievement and grand success. A must read for sure!

*Embrace change
and you'll
always continue
to grow*

For many of us, April ushers in the heart of springtime. It's one of my favorite times of the year. Here in Arizona, wildflowers paint the desert with yellow and orange and bring a sense of renewed energy and life.

Nature can be such a powerful reflection of who we are and who we are striving to become. Spring helps us put the long winters behind us as we take in the life that surrounds us. But it isn't spring for everyone. For our Forever family in the Southern Hemisphere, autumn is in full swing. There's a lot to love about the fall as well – and every season.

Just as the world around us goes through transitions, changes and growth – the same is happening to us. Your life and your business are in a constant state of progression and transformation. For me, Spring is a time that makes me feel energized and thankful for the world around me. I've always felt like my best ideas come in the spring.

Then comes summer, which I've always thought of as a time of exploration. We travel, meet new people and try new things. We are open to pushing our boundaries even further.

Fall is a time for maturation. The leaves change color and fall. The air gets cool and we are reminded that nothing stays the same forever. We are all in a constant state of change and

growth, and even though you may not be ready to say goodbye to summer, you know you'll welcome those days again with more experience and wisdom than you had the previous year.

I love winter because it brings the holidays. It's a

**THERE'S SOMETHING
BEAUTIFUL IN EVERY
SEASON. MAKE THE MOST OF
EVERY MOMENT YOU HAVE.**

time to slow down and enjoy the time you have with the people you care about the most. During this season, I find myself reflecting on the months that led up to winter, thinking about the ways in which I've grown and changed. And when it feels like the winter might be dragging on a little too long, there's always another spring to look forward to!

There's something beautiful in every season. Make the most of every moment you have. Don't lament the end of one season or the beginning

of another. Things in your life will continually change and grow and even when it feels like you are stuck in place, remember that every season will transition into the next. Your best times will turn to your most challenging days and those days will pass as well, making way for brighter ones.

In our business there are times of immense energy and growth, and times when it may feel like things are slowing down. We are always learning, always growing and always changing, even when it doesn't feel like it. If you can learn to take the best out of each moment, you'll find that these transitions make you more compassionate and successful and propel you into the next chapter of your business.

Forever yours,

Rex Maughan
CEO, Forever Living Products

*Making a
difference at
every level*

Over the past year or so, it's been amazing to see how fast Forever has grown. Many of you who are reading this right now are at the beginnings of your Forever journey and I want you all to know how excited I am to have you as part of the family.

At Forever, we don't just manufacture aloe vera products – we produce inspiration and opportunity. We open the door for people who want to build something meaningful on their own terms and in their own time. People join our company for any number of reasons and no matter what those reasons may be, Forever will always honor our commitment to you as an FBO.

Whether you are just dedicating a little time each week to earn some extra income or you have your sights set on achieving Chairman's Bonus, we are here to be your partner. Maybe compensation isn't your primary focus. Maybe you became part of our family to enjoy discounts on your favorite products, increase your self-confidence or meet new people. You are no less important to us than our top earners all over the world.

You've probably heard me say that at Forever, you are in business for yourself - not by yourself. This isn't just a clever turn of phrase but something that is truly at the heart of everything that we do at Forever. Growing up watching Rex build this company instilled a deep belief in me that what we do really does change lives. Whether that means helping someone achieve their dreams or giving

someone the tools to build a stronger community and earn a little extra income, we will always honor our role as your partner.

Our mission is to do everything we can to help you be successful. Here is what our commitment is to you:

- To develop and manufacture the best products available on the market today. This means combining pure aloe vera and natural ingredients that support and amplify aloe along with the latest scientific advancements to help you, your family and your customers truly look and feel better.
- To provide the support you need every step of the way. Whether you have questions about your business or need someone to cheer you on and celebrate your success, we take this role seriously. Our teams around the world are passionate about doing whatever it takes to help your business grow and thrive.
- To act on our passion for innovation. Whether we're talking about manufacturing, product formulation, technology enhancements or a new policy designed to help you grow your business, we are committed to thinking

creatively and working to stay agile in our ever changing industry to make sure our products and the tools you need to grow your business stay on the forefront.

- To offer the best compensation plan in the industry. We're going to keep paying out the highest bonuses and offering incentives that keep you motivated to bring out the best in yourself and your business. The fundamentals of our marketing plan have remained largely the same for more than four decades because when something works, it just works.

There's a lot of heart at Forever. No matter what inspired you to join the business, you can count on us to be there as your partner. You have the flexibility to build your business on your own terms without ever having to feel like you are going it alone.

Keep Smiling,

Gregg Maughan

Gregg Maughan

President, Forever Living Products

How to Stay Highly Motivated

It is the time of the year when the spring season brings with it all the good and auspicious things. But April 2021 seems to be a repeat of the last year. The second wave of Corona is spreading its dark shadow once again. But I can see a silver lining. We celebrated our Global Rally together in Delhi in April. Some of you received big cheques and are highly motivated. But no matter how successful you are in your business, even the best lose their motivation sometimes. Don't worry it is far too common. Demotivation is common even in those who seem to be motivated all the time.

I use many techniques to stay motivated. I am sharing those with you. Remember, learning is half the battle, the other half is applying what you learn.

Have clarity of purpose

Understanding why you are doing something makes a difficult job much easier. The easiest job in the world can seem very hard if you don't even know why you are doing it. Muhammad Ali was asked if he loved training for competitions. He said he hated every single minute of it. But he did it anyway because he had **extreme clarity of purpose**. He said he was willing to train hard and suffer every day for a few years and then lead the rest of his life being known as a **great champion**.

Arnold Schwarzenegger was asked how he could manage to lift extremely heavy weights for 5 hours a day 6 days a week. He said he could do it because he knew that he wanted to be **the greatest bodybuilding champion in the world**. Working out so hard and lifting heavy weights, again and again, is impossible for someone who doesn't even know why he is doing it! Unless you know why you are doing something you will usually do a terrible job at it. Have clarity of purpose and everything will become unbelievably simpler.

Break down Big tasks into smaller ones

Seeing whole things makes them look overwhelmingly big.

Break them down into small bits. Concentrate on the parts and soon you will finish the whole of it. If you have a yearly goal break it up to achieve it. You need to break it down into a six-monthly goal, then further into a monthly goal, then a weekly goal, a daily goal, and even an hourly goal. As long as you keep hitting your hourly goal, the yearly goal will be achieved automatically. But keep **reminding yourself why you are doing it**. That will keep you motivated while you work hard daily.

Believe, that it is possible

Believing you can do something makes it much easier to do it. People who believe something is possible put in the effort to make it possible. Those who believe something is not possible have a harder time pursuing a goal. As a result of that lack of belief, they are also much more likely to give up when the going gets tough. Keep believing that you can do something and eventually you will be able to do it.

A simple way to build belief is to do one thing one step at a time. At first, your belief will be very low or non-existent but you will have to still convince yourself to take the first step. When you do take that first step and realize that you can do that thing, you will build up **courage, belief, and skill** and as a consequence doing the same thing will become easier and easier and easier!

Accept the fact that things go wrong

Believing in yourself is good, but being over-optimistic isn't a good thing because no matter what you do, things will go wrong. When you try a new thing, the chances of it going wrong are very high. When you do a tried and tested thing, there are still chances of an unexpected failure.

It is impossible to predict the exact outcome of just one action. Successful people always have multiple plans ready to respond to the rival. If plan A doesn't work, there is plan B. If plan B doesn't work, there is plan C and so on.

When you anticipate a crisis, you are much likely to have multiple contingency plans to deal with it and you are much less likely to be demotivated when it happens because you will not be caught off guard.

Change your environment

Cut out the gossip and the entertainment and the fear-mongering that others feed you. Replace it mostly with things that lead to self-improvement. Cut out the negative people from your life and replace them with people who share common dreams and aspirations and are motivated enough. Soon you will find the same motivation because habits are contagious whether good or bad!

Always keep learning

Knowing that someone, before you have achieved what you wanted to achieve, makes it much easier to believe you too can do it. Isn't it?

The simple way to achieve something you want to achieve is to learn from someone who has done it before. It doesn't mean you copy them blindly as circumstances are different. But on a general level, the methods used by an individual that helped him/her succeed, especially those methods that have also been DUPLICATED by others with immensely successful results are a good blueprint to follow.

So have role models, try and interact with them if you can, and if you can't then read about them, their psychology, and their methods. Also, learn about how they kept themselves motivated when they didn't feel like working or when the going got tough. You will receive some amazing nuggets of wisdom that will be of great value to keep yourself motivated on your journey as well.

But be sure that you learn only the ethical things.

Compete with others

People often say be your competition. I disagree. Those who compete only with themselves in the professional world, end up getting destroyed very quickly because they never try to match up to the extraordinary standards set by their rivals.

Competition with others when done healthily will make you challenge your limits to the extreme in a way that would never be possible if you only compete with yourself. When

you see yourself making incremental progress you may be reasonably happy and content that you are making some progress, but it is when you compete with someone better than you that you challenge yourself.

Competition when done ethically brings out the absolute best we are capable of and motivates us to do things we would never do if there was not a challenge out there waiting for us.

Remind yourself that time is limited

If there is one thing that everyone in the world has more or less equally, it is time. If you lose the money, you can always recover it but lost time can never be recovered. Our time on earth is so limited that the future is never the right time to begin anything, **the right time to begin anything is now**. The more you realize that time is limited, the more you will be motivated to work on your dream before it's too late.

Do not fear failure

The greatest winners of the world have failed far more often than the losers have ever tried. Because the winners do not fear failure, they don't give up when they face it. Nobody enjoys failure, it just means they are willing to accept the fact that everything in life has a learning curve and every learning curve involves plenty of failures. This is why contingency plans are important as mentioned earlier.

Those who are willing to face failures, learn from those mistakes and try again and again eventually acquiring enough skills and experience to maximize the probability of winning. Those who are afraid of failure on the other hand ironically become the biggest failures.

Remember what Michael Jordan said, "I've missed more than 9000 shots in my career. I've lost almost 300 games. I've been trusted to take the game-winning shot 26 times and missed. I've failed over and over and over again in my life. And that is why I succeed."

Please remember knowledge without application is useless. Knowledge with application becomes wisdom. So, apply these tips and see things change for the better! Many of you aspiring eagles, find some reserves of energy and go for the final dash to cross the finish line **NOW**.

All the best.

We are forever.

Turmeric Lozenges with Aloe Vera

As a spice, turmeric is a staple of Indian household. Curcumin is the principle constituent of Turmeric. Ayurvedic healers have also been using turmeric as a medicinal plant for at least 2,500 years. Turmeric began to emerge as an important medicine in Ayurvedic healing around 500 B.C.

For generations, haldi/ turmeric has been a miracle cure in Indian households. The spice was most commonly used to purify the blood and skin, but it was also used to treat conditions as diverse as epilepsy, diarrhea, cough and cold, skin conditions, wounds and even urinary infections.

Turmeric is known for its antiviral, anti-bacterial, antioxidant, anti-inflammatory, and healing properties. However, the biggest challenge with Turmeric is its low absorption into the body's circulation system so as to have an Active effect – low bio activity.

Forever Living India brings to you **Forever AloeTurm™**. It is a specially designed unique formulation containing all goodness of

turmeric and aloe vera combined in a single mouth-dissolving lozenge. This product is power packed with several medicinal benefits such as improvement in immunity, skin health, wound-healing, pain relief, maintaining oral hygiene and treatment for common cold, cough and sore throat.

This formulation overcomes turmeric's low absorption challenge. It allows the bioactive turmeric extract in the lozenge to dissolve in the mouth and get instantly – and directly – absorbed into the bloodstream. **Forever AloeTurm™**, are Turmeric Lozenges with Aloe Vera. **Forever AloeTurm™** is a globally patented mouth-dissolving turmeric lozenge that delivers 100% of turmeric benefits directly into the bloodstream – safely, and side effect-free.

Key benefits

Helps in Skin health

Maintains Oral health

Boosts Immunity

100% natural, 100% safe

For sore throat, cough and cold

Minor cuts and bruises

Globally patented product

Allows the buccal absorption of almost 100% of the Curcumin in the bloodstream, bypassing the digestive system (liver enzymes render 50% turmeric ineffective if swallowed)

FOREVER ALOETURM™
SKU: 031
MRP: ₹298
CC: 0.018

Recommended doses:

- For maintaining Skin health, immunity and oral hygiene: 2 lozenges daily
- For sore throat, cough, cold, minor cuts and bruises, mouth ulcers and minor pains and aches: 3 lozenges for at least 5 days

KRISHNA ARORA LEVEL- 2 \$89,710.06 / ₹ 63,47,110.51

FINALLY THE BIG REVEAL IS HERE!!

I feel blessed that at the mere age of 21, I became No.1 FBO in 2020 and on top of that I received Chairman Bonus level 2 cheque of Rs. 63 Lakhs - Highest cheque of India in 2020.

But you know how it happened? I just didn't concentrate on achieving this incentive; in fact I developed the same mind-set of my team and planned their CBQ as well.

There were a total of 15 CB achievers from our team that received their cheques at the exciting FGR21 event in Delhi. There were four Level 2 and eleven Level 1 achievers.

We earned a cumulative total of approx. Rs. 2.5 Cr.

To be honest, I was very happy in the rally not because I got my cheque but we were 15 team members and along with our guests we were 30 celebrating together.

Everyone asks me what do you do to qualify it and how in just 3.5 years you became the no.1 FBO in the country? My only reason is consistency, I do consistent

efforts no matter on what level I am at. I was not even aware that I'll be no. 1 but as soon as I qualified for 5Kcc, CB level 2 and Sapphire Manager, it was all clear.

I received 4 trophies in the rally - Rank 1 Total Volume, Rank 2 Non manager, Sapphire Manager and 5K business volume trophy.

It was one of the best trips of my life and seriously it was unexpected, because company already gave me a compensation amount of \$6200 (4.16 lakhs) in cancellation of the rally in Sydney and still, just to make us feel special, the company hosted an impressive event amidst the pandemic crisis with such ease. On top of that, I was given the privilege of the best room in the hotel. I was the only FBO who was rewarded with a suite room.

The event has raised the bar for me and I have set my goals to become a Diamond Sapphire, GLT- 7.5kcc and Chairman Bonus - level 3 with lots of big cheques in my team.

At last I again want to say that this is the best so qualify your incentives fast and let's meet on next trip and share our thoughts.

TARANG ARORA LEVEL- 2

\$84,446.81 / ₹ 59,74,728.31

I started my journey with Forever 3 years ago when I was 18 and had just completed my high school education. As I learnt more about the company, the products and the amazing business plan, I decided to work full-time from day one.

The motivation and enthusiasm were such that I started promoting the wonderful products and sharing the wonderful business opportunity with many around.

While I was meeting new people sharing insights about the company, a drastic change occurred in my overall personality. My communication skills improved and I had become more confident. This motivated me even more and in just 6 months, I became a Manager with 1 Manager in my downline, which is none other than the top FBO today - Krishna Arora.

After that, I became a Senior Manager, qualified for Car Plan 3 and my income rose to six-figures. My uplines

motivated me a lot in my journey and always backed me. With their support, I qualified for MR, EMR and most importantly Chairman Bonus level 1 in 2019, then again in 2020 along with 2 CBQs in my team and now I am privileged to qualify for level 2 with 12 CBQs in my team.

It was a great feeling to see my team succeed along with me.

I always get asked one question, "You are just 22, how do you manage so much at such a young age" and my reply to that has always been - Be Consistent, Be Confident and Be Laser Focused. I would like to thank my upline and the Forever Living India Management for all the support and this life-changing opportunity that truly transformed my life.

ROHIT ARORA
LEVEL- 2

\$68,884.45 / ₹ 48,73,669.87

JATIN ARORA & ANURADHA LEVEL- 2

\$68,809.44 / ₹ 48,68,362.81

2020 was an uncertain year of pandemic and many people had huge impact on their jobs and business and we FBOs were no exception.

Success depends on the mind-set you develop and actions you take on a daily basis without over analysing the circumstances.

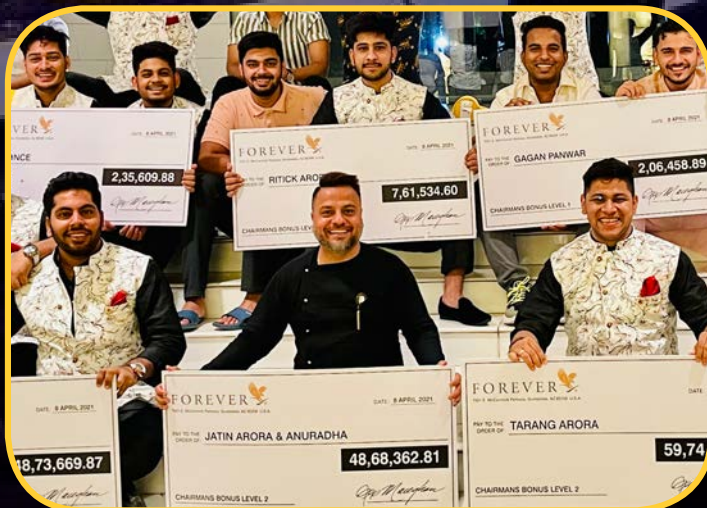

When most people were giving excuses that we can't do business due to Lockdown, my team and I decided to shift the whole focus from offline to online. Of course, it took few days for the team to develop the required mind-set due to sudden shift. CBQ incentive was not part of my goals in 2020; however business started to pick up during lockdown because social media has no limits, you can't even imagine how many people you can reach out to share your business and products.

When I saw the team growing day by day, new people joining in masses and making so many consumers and further duplicating it quickly through zoom meetings and other social media platforms, I decided to upgrade my 2020 goals and planned to achieve CBQ Level 2 in the middle of the year. Someone said it right, "Most things don't work unless you do", how true is that!

It seemed impossible in the beginning however I worked day and night with the team to make it happen. The overnight decision to take my business completely virtual during lockdown became the biggest reason of success for my team and me in 2020.

I didn't qualify alone. Three level 2 and Twelve Level 1 FBOs from my team qualified for the Chairman Bonus. Not just this, I ranked No. 7 in the Top FBOs in India in Non-Manager CCs. What do you think, it was a cakewalk, not at all but nothing seems impossible when you make goals and work to achieve with whatever it takes.

Three months have already passed in 2021 and my team and I have set our goals even bigger this year. If you're still thinking how you will achieve your goals in 2021 due to nonsense excuses, I would suggest you to start taking small steps on a daily basis because Rome was not build in a day. It took time. Similarly, you just need a start to make it big in 2021. Let's together make 2021 the best year in the history of FLP India.
