

Aloe Propolis Creme

#051

Aloe Propolis Creme

The best of aloe and the hive.

Only Forever could create a product as inventive as Aloe Propolis Creme. This nourishing cream combines two of our most prized ingredients, pure inner leaf aloe vera gel and bee propolis. Together, these two fundamental elements help your skin maintain beautiful tone and texture.

Bee propolis is a resinous substance that bees create to fortify their hives. Turns out it also has properties that create a natural barrier on your skin, locking in the natural skincare benefits of aloe.

Aloe vera combined with vitamins A, E and C work to nourish and moisturize the skin while bee propolis helps rejuvenate skin's appearance for smoother, suppler look and feel. Aloe Propolis Creme also enhances the soothing power of aloe with the addition of chamomile.

Of course, we use pure, inner leaf aloe vera gel from our own plantations. The aloe is hand harvested and filleted to avoid damage and ensure only the highest quality aloe vera makes it into our products.

It's easy to see why Aloe Propolis Creme is one of Forever's flagship products. Treat your skin to the soothing, nourishing and protecting power packed inside every bottle.

SKINCARE

FAST FACTS

- Rich blend of aloe vera and bee propolis
- Helps maintain beautiful skin tone and texture
