

# Forever Sun Lips™

Sun, wind, and cold weather can all take a toll on the delicate tissues of our lips, leaving them feeling cracked, sore, irritated and dry. Protecting our lips is just as important as protecting our skin from such environmental damage, yet we often neglect these tissues as we focus on moisturizing our face and body. Forever Sun Lips™ is a soothing lip balm that helps to protect the delicate tissues of our lips from the sun and wind, while also offering the cooling sensation of mint!

It is important to remember that sunburn can occur not only in the summer months, but any time of year, and cold, dry winter weather can make such damage feel and look much worse. With its broad spectrum SPF30 sunscreen protection, Forever Sun Lips™ helps to prevent sunburn and protect against both UVA and UVB rays. Applied before sun exposure, and reapplied whenever needed, Forever Sun Lips™ can help protect against sun damage, while also providing soothing botanicals to help soften, calm and soothe irritated, chapped lips.

Jojoba seed oil is well known for its moisturizing properties for the skin, and can help to soften the tissues of the lips while Aloe Vera acts to naturally soothe and calm, as well as provide a layer of moisture. Allantoin helps to soothe tender skin, and natural mint gives Forever Sun Lips™ a cooling sensation that also eases irritation.

Forever Sun Lips™ helps to restore lip barriers to temporarily protect and help relieve chapped or cracked lips. With soothing ingredients to help protect the lips from the drying effects of wind and cold weather, and calm red, sore, irritated tissues, Forever Sun Lips™ is the perfect daily addition to anyone's skin care regimen.

#### CONTENTS

NET WT. 0.15 oz. (4.25g)
