We own numerous patents for the stabilization of aloe vera, which assures you of the highest quality aloe vera-based health and beauty products. To ensure our stabilized aloe vera is the finest available, we've vertically integrated our entire aloe process. We control everything from fields, to factory, to research and development, to packaging, to shipping and distribution. This allows us to guarantee the quality of FLP products to our millions of customers and distributors who depend on them for a healthier life and a more rewarding livelihood.

Our aloe vera products were the first to receive the International Aloe Science Council Seal of Approval for consistency and purity. Many of the products also feature the Kosher and Islamic Seals of Approval, which further demonstrate the global appeal of Forever Living Products. These products are not tested on animals.
