

Forever Bee Pollen®

Pollen is the fertilizing dust of flowers. Bees gather and bring it back to their hives for food. Without pollen, plants, trees and flowers could not exist; even we depend on it.

Forever Bee Pollen® is gathered in specially-designed stainless steel collectors from the blossoms that blanket remote, high desert regions. This ensures the freshest and most potent natural food. Forever Bee Pollen is all-natural and contains no preservatives, artificial colors or flavors.

Bee pollen has been found to contain a wide spectrum of trace nutrients. These include B-complex vitamins and vitamins C, D, E, K, and Beta Carotene (vitamin A), plus numerous minerals, enzymes and coenzymes, plant-source fatty acids, carbohydrates, proteins, and amino acids - including 'essential' amino acids that the body cannot manufacture for itself. Bee pollen is one of the most natural and complete foods available.

Bee Pollen is readily digestible and easily absorbed by the human body. Research by scientists suggests that Bee Pollen may assist in maintaining a healthy circulatory, digestive, immune, and nervous system.

Supplement Facts

Serving Size 1 Tablet

Amount Per Tablet

Bee Pollen, granular	500 mg*
----------------------	---------

* Daily Value not established

OTHER INGREDIENTS:

Honey, Stearic Acid, Silica and Royal Jelly.

CONTENTS

100 tablets
